Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5, 6, 9-12, 14 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Theobald.

Re claims 1 and 9, Theobald discloses a shock absorbing structure (12) for a two-wheeled vehicle including a shock absorbing member projecting from a vehicular body (7), wherein shock is absorbed by crashing the shock absorbing member comprising a front end of the shock absorbing located in front of a front wheel (13), an upper end of the shock absorbing member located at such a position that the upper end of the shock absorbing member does not block a forward viewing area for the driver, a center of a leading end contact surface of the shock absorbing member located at a position higher than a vertical position of a center of gravity of both the vehicle and the driver and wherein right and left side surfaces of the shock absorbing member are offset to a center of a vehicular body from right and left side surfaces of the vehicular body, wherein the upper end includes a forward section with an inclined upper surface for permitting the forward viewing area of the operator to be unobstructed.

***Claim Rejections - 35 USC § 103***

Art Unit: 3683

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 8 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Theobald in view of Brumby.

Re claims 8 and 14, Theobald does not teach a shock absorbing member formed from resin. Brumby (11) teaches a shock absorbing member formed from resin. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have formed the shock absorbing member of Theobald from resin as taught by Brumby since it is well known in the art that impact shock absorbers are formed from resin for its molding properties.

#### ***Allowable Subject Matter***

5. Claims 2, 3, 5, 6-7, 10, 11, and 14-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***
